Year 11 Computing

Course Details

GCSE OCR Computing (J275)

2 Year course

3 Components

A451: Computer Systems & Programming 40% **Exam**

A452 – Practical Investigation 30% **Coursework**

A453 – Programming Project 30% **Coursework**

Course Overview

This course will give your child a real, in-depth understanding of how computer technology works. They will also gain an insight into what goes on 'behind the scenes', including computer programming, which you will find fun, challenging and absorbing.

What are they doing?!

Currently students are preparing to undertake their coursework. They have extensively studied the theoretical aspects of computing as well as learning a programming language – Python. It is now time to put their new found skills into practice.
